Re: K-Love

To Whom It May Concern:

Everyday when I get into my car I look forward to hearing the encouraging messages that are provided through K-Love, 104.3 FM, in Cincinnati, Ohio.

K-Love has a way of making everything alright for me in my life. Whenever I feel down, I turn on K-Love and the problems seem to disappear or at least they seem not as important as the "big picture" in life.

If I couldn't turn on the radio and hear K-Love on a daily basis my life would become very sad, honestly, it picks me up when I am down and keeps me floating when I am having a great day!

K-Love sends the message that God wants to send to us through music. To have an outlet like K-Love is a blessing in itself and to think that it may no longer be available is truly distressing. What am I going to do on a bad day? What music can I listen to that will reinforce for me that everything is going to be alright.

With God all things are possible and I hope that keeping K-Love on the FM translators is in his plans because I know that I am not the only person who is encouraged and filled with love and blessings when the K-Love radio station is playing music.

God Bless,  
Jessica Smitson
